DESIGNER DNA

Ready to branch out and design your DNA strand? What traits (features) would you want your creature to have?

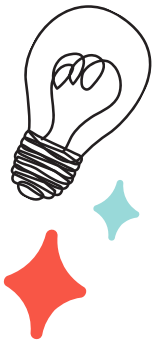

Use the blank template below and draw your own?

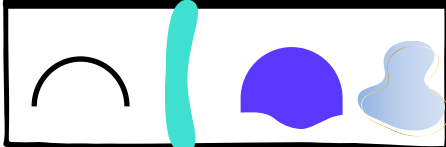

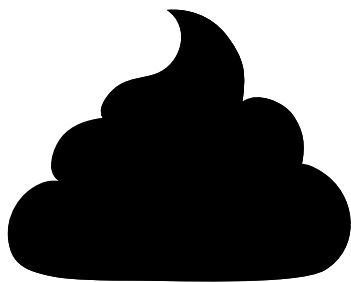

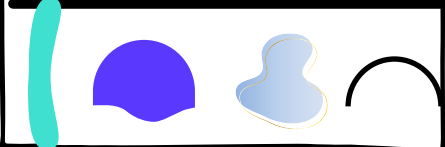

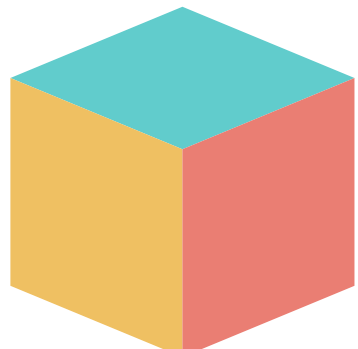

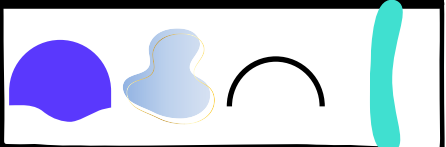

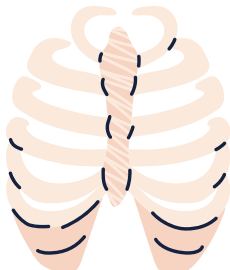

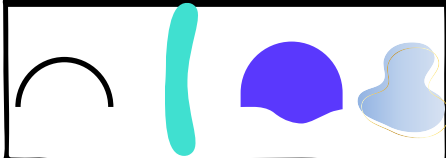

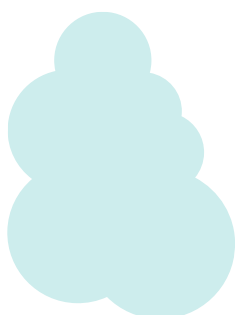

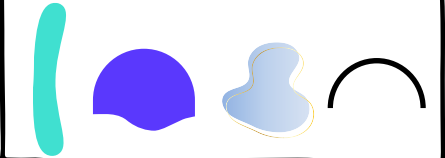

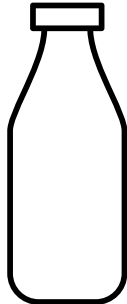

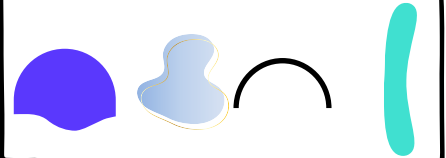

Will you use my traits, like head, or will you change it up? Maybe you'll have a line of different type of fur or add some colour?

Play it with a friend or your family and see what they would design.

Be sure to send us in your creations for our Gallery.

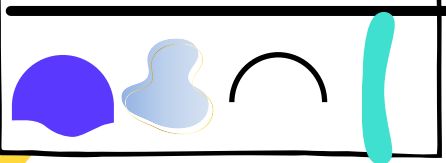

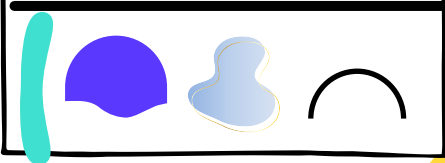

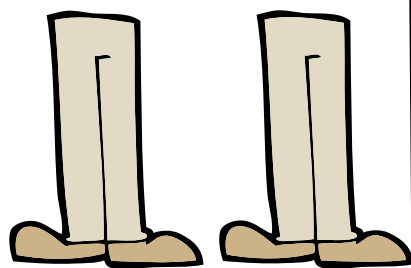

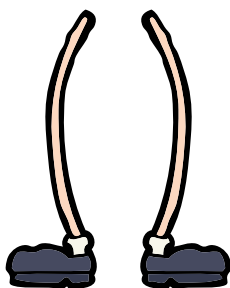

Have fun!
